

SAPIENZA AT A GLANCE

Sapienza University is organised into 11 faculties, 63 departments and various research centres that provide students with a vast choice of courses and degree programmes, including programmes that are held entirely in English. Throughout the course of the year, Sapienza also organises a myriad cultural, social and sporting activities to encourage students to conduct a well-rounded social life. These include:

- The "MuSa" orchestras, choirs and jazz ensembles;
- Sapienza Theatron - Ancient Theatre Group;
- The Sapienza web-radio station;
- A wide range of sports facilities.

VISITING STUDENTS

Visiting students, currently enrolled at a foreign college or university, may attend individual courses (single academic modules taught in Sapienza degree programmes) and sit related exams without being enrolled at the university. Sapienza offers a variety of non-degree courses in English Masters Programmes. These are generally science and technology-oriented and provide visiting students with a unique opportunity to expand their academic horizon. Single courses may also be taken by foreign nationals not currently enrolled in any college or university for professional or continuing education purposes. In this case, only courses with no enrolment restrictions are available and visiting students may take no more than two courses per year.
